

Dear Sir/Madame,I enjoy listening to XM satellite radio. They provide a fantastic array of programing that is not available anywhere else. Since I live in HOT South Texas I find it very useful to have XM Instant Traffic & Weather reporting. It is also important to have traffic reports when traveling from home into the larger cities. Please consider rejecting the NAB's petition 04-160. Thank you kindly for your attention.

I remain,  
Respectfully yours,  
Edna Garcia-Dostal, PhD
